1. Intro to O40ACoin

1.1 What is O40ACoin?

Our 40 Acres (O40A) and a Mule has a long history with African-Americans¹. 40 Acres and a Mule represents Special Field Order No. 15, approved by President Lincoln. The order was issued by Civil War Union General Sherman's ...for coastline stretching from Charleston, South Carolina, to the St. John's River in Florida, including Georgia's Sea Islands and the mainland thirty miles in from the coast...that was given and overturned in 1865.² The order was overturned in 1865, and the land was taken from the African American residents¹².

This important piece of American history to many, represents the need to always have the ability to take care of yourself, rather than rely on broken, breakable or overturn able promises (to include orders and legislation).

To make up for this and other perpetually unfulfilled promises, O40A Inc, a 501C3 non-

profit organization, has created a crypto currency ("O40Coin") as deflationary fungible token. O40Coin takes an 8% fee from each transaction made with the token then generates 4% liquidity and 4% reward distributed to holders and charities. The goal is to incentivize long-term holding while discouraging large-scale, manipulative selling ("whale dumps"), thus contributing to a more stable and equitable market for all.

Our main focus with O40ACoin is to create transparency and generate full clarity for "new" crypto investors to know that what they are trading is safe and secure. O40A is our collective chance to level the playing field and create 21st Century Reparations.

The team behind O40ACoin ensures everyone enters O40A with equal opportunity by initiating a fair launch, meaning that there are no allocated coins to private venture capital and big business has to buy in at the same time as the rest of the community.

1.2 Why O40ACoin?

African-Americans outpace Whites and

² Finally, section three specifies the allocation of land: " ... each family shall have a plot of not more than (40) acres of tillable ground, and when it borders on some

water channel, with not more than 800 feet water front, in the possession of which land the military authorities will afford them protection, until such time as they can protect themselves, or until Congress shall regulate their title."

6. RFI STATIC REWARDS INCENTIVIZED HOLDING

O40ACoin fungible tokens are distributed automatically and instantly to all holders who receive a share in 2% of the transaction fee. Reflect Finance (RFI) helps streamline tokenomics and provides instant reflection of rewards, so funds stay in the holder's wallet while still earning yield. This feature sets O40ACoin apart from other similar tokens.

7. AUTOMATIC LIQUIDITY POOL (LP)

Each transaction fee contributes toward automatically generating further liquidity. This benefits those that choose to hold O40ACoin long term, solidifying the price, adding stability, and ensuring healthy circulation. This fee splits 50/50, half of which is sold by the contract into ETH, while the other half of the tokens pair automatically with ETH as a liquidity pair in DeFi. Again ensuring continuous liquidity.

8. CHARITY

Of each transaction, 3.8% is placed in a transparent O40A community donation wallet. Meaning, you will have the ability to end the generational wealth gap by helping our collective communities send the needed resources to change the plight of others; scholarships, no interest loans, paying legal fees, suing wrong doers, building hospitals/schools, and much-much more.

9. LOCKED LIQUIDITY

Locked liquidity means O40ACoin has provided secure liquidity so users can buy and sell without the risk of anyone pulling liquidity. Highly secured, all initial liquidity provided will be locked initially to ensure liquidity (**anti-rug pull**). Locked liquidity will ensure rapid organic growth in the early stages of O40A Coin.

10. DEFLATIONARY MECHANISM

With an automatic 1% burn in the transaction fee, O40A Coin becomes a deflationary token which reduces supply over time, which may positively influence the token's scarcity. In addition, every year, the O40A community holders will vote on additional.

11. ANTI-WHALE PROGRAM

Along with the auto-generating liquidity protocol, O40ACoin added an Anti-Whale feature to protect users. Many crypto users have experienced the effects of whale manipulation. To shield O40ACoin holders, sell/buy orders pay an 8-10% fees to discourage pump and dump or rug pulls.

Additionally, 1/5% of the fees go back into the liquidity pool, adding value to HODL rewards.

12. REWARDS

In the future, O40A Coin will institute a referral campaign in which it rewards holders with rewards for referrals under certain conditions. More will be announced on this feature later.
